SABADELL EVOLUCIÓN 06 2029, F.I.

INVESTMENT POLICY

The Fund invests at least 70% of its total exposure in public and private fixed income securities, primarily with a maturity at or below the time horizon and a minimum credit rating of BBB-, or equivalent, at the time of purchase. A small portion of the portfolio, normally around 0.50% (maximum 1%) of its assets, is allocated to purchasing options on European stock market indices, with the aim of obtaining potential additional appreciation, without total exposure to equities exceeding 30%. For hedging and investment purposes, it may be possible to trade in derivatives traded and not traded on organised derivatives markets. The Fund's time horizon date is 30 June 2029. A fuller description of the investment policy can be found in the Key Information Document (PRIIPs KID) available at sabadellassetmanagement.com. WARNINGS: This Fund may invest up to 40% in fixed income issues of low credit quality and therefore has a high credit risk. Fixed income investments would incur losses if interest rates rise, so redemptions made before maturity may result in losses to the investor.
