

INVESTMENT POLICY

This is a Fund with the non-guaranteed objective of recovering 100% of the initial investment plus a return of 2.43% AER UNGUARANTEED on 2 February 2026. On 2 February 2025, a fixed amount, corresponding to a mandatory redemption, of 2.70% of the initial investment will be received, adjusted for any voluntary redemptions and/or transfers made. It invests at least 60% of its assets in debt issued or guaranteed by EU Member States, by Autonomous Communities, by Local Entities and by International/Supranational Organisations of which Spain is a member. The remainder is invested in private fixed income, money market instruments, deposits, up to 10% in other CIIs and liquidity. At the date of purchase, the issues will have at least investment grade (minimum rating BBB- or equivalent by at least two agencies of recognised prestige). A fuller description of the investment policy can be found in the key information document (PRIIPs KID) available at sabadellassetmanagement.com. **WARNINGS:** The Fund is not performance and initial investment is not guaranteed and investors may make a loss. The payment on 2 February 2025 is a redemption of the investment, i.e. it does not correspond to the return obtained by the Fund and the Fund could be making a loss even if it receives the payment. Fixed income investments would incur losses if interest rates rise, so redemptions made before maturity may result in losses to the investor. The estimated return is not guaranteed.
